

# CIRKUSCENTRUM

## APPLICATION PROCESS & RULES FOR DAILY TRAINING

You need to be a member of Cirkuscentrum and have been approved to participate in the daily training in order to purchase a training pass. The pass entitles you to Daily Training for professional circus artists. As a member of Cirkuscentrum, you can benefit from professional development opportunities, workshops, and industry meetings organized by Cirkuscentrum. Learn more about membership in the document "Cirkuscentrum membership benefits."

### Application process for training permit

To obtain a training permit for professional training, please follow these guidelines:

1. Send your application by email at least one work day before your first planned training session. Late applications may result in denial of entry by the receptionist.
2. If your application lacks necessary information, Cirkuscentrum may request additional details to make a full assessment. To be counted as professional you need to have at least three years of vocational education within circus or be able to prove two years of professional activity.
3. If, after providing additional information, the applicant is still deemed unsuitable, Cirkuscentrum reserves the right to deny access to the training space.
4. Note that different venues may have unique participation rules based on their funding. Therefore, approval is required for each separate training space.

As a member of Cirkuscentrum, you agree to adhere to the association's rules and code of conduct. It is your responsibility to read the document "Cirkuscentrum's Rules and Code of Conduct" before beginning your training and to follow the guidelines outlined there.
